Editing

ProtoScan offers a new and improved editing software tailored to your prototyping needs. It offers a wide variety of editing options such as adding colour, gradients, a multitude of fonts and being able to see a live view of what your product will look like. These options are just the tip of the iceberg of what we have in store.

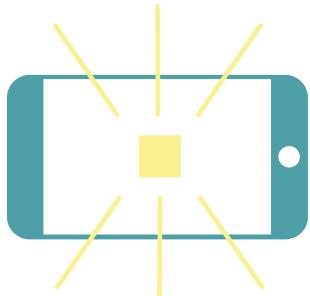

Snapshot

Making prototypes can be as easy as taking a picture. Take a quick snapshot with your phone or tablet to turn your rough sketches into a ready to edit vector.

Using the tools in our editing software can help you complete a high fidelity prototype in no time.

"This program really cut the time I used to spend on transferring all of my paper prototypes to digital. Taking that extra time out sped up my work speed immensely."

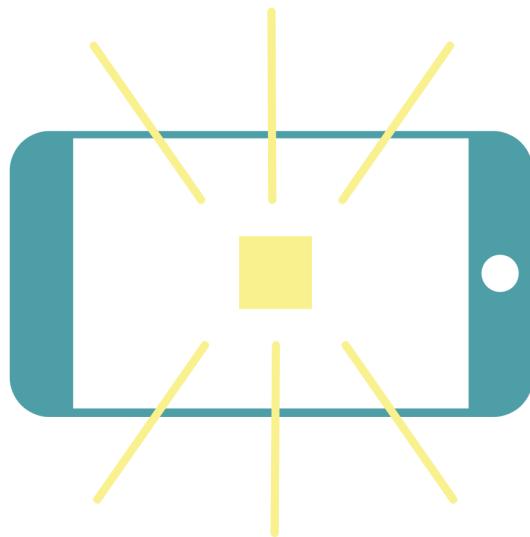

- John Smith

WHY AM I REDOING THIS PIECE?

To put it simply, I have so much more knowledge and skill now that I feel like I can do better. I think the concept I came up with is pretty alright, but the execution was nothing like I imagined it to be because my skills just weren't as good. I want to take this idea and make it better by revisiting the UX design portion of it, creating new and easily identifiable illustrations and add some motion design to showcase the interactivity. I'd also like to change the colour scheme and parts of the layout.

At the end of this, I hope to achieve in creating a new and improved version of this idea I came up with 2 years ago. I have so much more to offer in terms of scope and skill that can bring this piece together and make it a meaningful piece for my portfolio.

INSPIRATION

The screenshot shows the GPA Calculator homepage. At the top, there's a navigation bar with links for 'Grade Calculator', 'GPA Scale', and 'FAQ'. Below the header is a section titled 'GPA Calculator' with a sub-subtitle 'Calculate your high school, college and cumulative GPA, check your grades and understand how the GPA scale works.' A large central area features a table for 'Semester 1' with columns for 'Course name', 'Grade', 'Credits', and 'Weight'. A 'Weighted' toggle switch is shown above the table. To the right, a 'Using the GPA Calculator' section provides instructions for high school and college students. At the bottom, there's a 'Cumulative GPA' meter ranging from 0.0 to 4.0, currently at 0.00, and a 'Visit Website' button.

This screenshot shows a detailed view of the GPA Calculator. It includes a 'GPA CALCULATOR' section with a brief description of the tool for tracking GPA and class grade conversion. Below this is a 'How to Calculate GPA' section with a table of common letter grades and their corresponding GPA values. A 'Visit Website' button is located at the bottom of this panel.

The 'Learn' section features a woman standing in front of a bookshelf. A green button labeled 'Get calculatin' →' leads to a 'How to Calculate GPA' guide. Below the guide are three boxes: 'Grade Calculator', 'Final Grade Calculator', and 'Weighted Grade Calculator', each with a brief description and a blue '→' button.

The Chinese New Year 2018 website has a red-themed header with the title 'Chinese New Year 2018'. The main content area features sections like 'What to Eat During Chinese New Year', 'Red Pocket Money Guide', and 'When is Chinese New Year?'. A 'CHINESE NEW YEAR' section on the right highlights the history, myths, taboos, and traditions of the festival. A 'Visit Website' button is at the bottom.

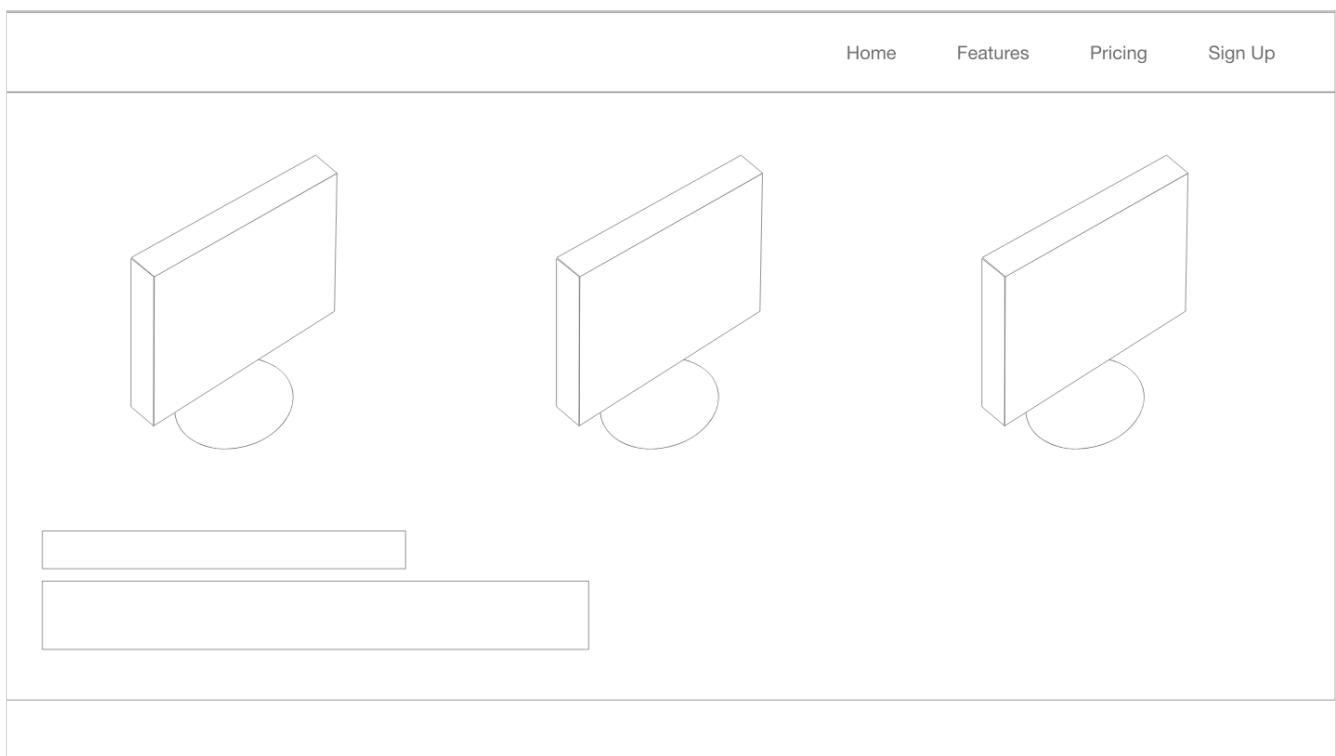

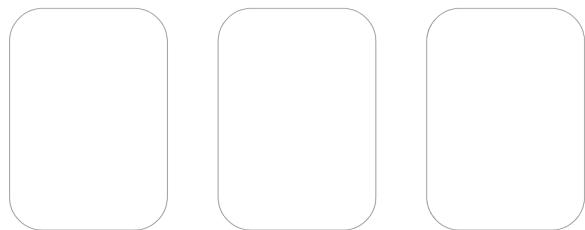

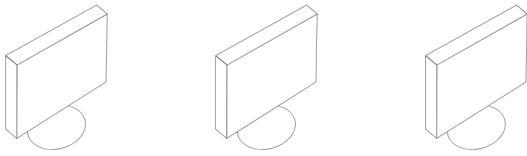

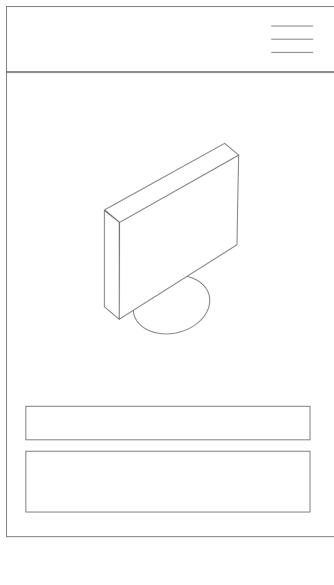

The Word Counter website has a dark blue header with the title 'WORD COUNTER'. The main content area shows a dashboard with various word count metrics: 'Word Counter is 1000 words!', 'Word Counter in Google Docs is 154 words', 'Word Counter in Microsoft Word is 24 words', and 'Word Counter in Evernote is 154 words'. Below the dashboard are sections for 'How Many Pages is 1000 Words?', 'Word Count in Google Docs', 'How Many Words per Page?', 'Word Count in Microsoft Word', 'How Many Words are in a Novel?', and 'Word Counter in Evernote'. A 'Visit Website' button is at the bottom.

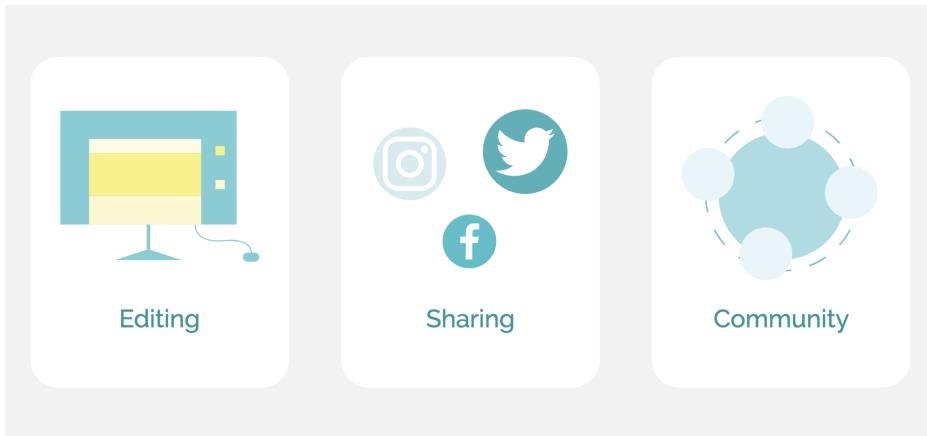

Academic GPA Calculators

Three cards are shown under the 'Academic GPA Calculators' heading:

- College GPA Calculator**: Quickly calculate your college or semester GPA, and learn to do it yourself.
- High School GPA Calculator**: Track and save your high school GPA to keep tabs on your academic progress.
- Cumulative GPA Calculator**: Figure out your overall GPA, and how you stack up against the national average.

SKETCHES

Academic GPA Calculators

College GPA Calculator
Quickly calculate your college or semester GPA, and learn to do it yourself.

High School GPA Calculator
Track and save your high school GPA to keep tabs on your academic progress.

Cumulative GPA Calculator
Figure out your overall GPA, and how you stack up against the national average.

WHAT AM I INCLUDING IN THE NEW PIECE?

- New layout for the entire website
- New interactivity based on the new layout
- A whole overhaul on the colour scheme
- Illustrations that capture attention instead of looking really dull
- A motion piece or two to showcase the various ways to use this product
